

# ASHER DANIEL M. TIBAYAN

**Address:** Imus City, Cavite, Philippines
**Phone:** 09223831413
**Email:** asherdanieltibayan@gmail.com
**Website:** portfolio-asher-tibayan.vercel.app · linkedin.com/in/asher-daniel-tibayan/ · github.com/Xlime75

## PROFILE

Fourth-year BSIT student at St. Dominic College of Asia with hands-on project experience in web and mobile development, backend integration, databases, and AI/IoT applications. Familiar with JavaScript, TypeScript, Node.js, React, Next.js, and MongoDB. Seeking an OJT opportunity to contribute to software development projects, strengthen practical engineering skills, and gain experience working with a professional development team.

## TECHNICAL SKILLS

- **Programming languages:** JavaScript, TypeScript, Python, Java, Dart, C, C++
- **Web & Mobile:** React, Next.js, HTML/CSS, Bootstrap, Flutter, Android SDK
- **Backend & Data:** Node.js, Express.js, REST APIs, MongoDB, Firebase, SQL
- **AI & IoT:** TensorFlow, Random Forest, Arduino
- **Tools:** Git, GitHub, Postman, Visual Studio Code, Android Studio
- **Languages spoken:** English (Professional), Filipino (Native)

## PROJECTS

**Rx Box: AI-Driven Smart Pillbox** *(Ongoing)*
*Hardware & Backend Integration Developer · Next.js, React, TypeScript, MongoDB, Arduino, Random Forest*
- Developing an AI-assisted medication adherence monitoring system that combines a smart pillbox with a web application. Working on hardware integration, database integration, testing, and debugging to support medication activity tracking, adherence risk prediction, and family notifications..

**AI-Enabled Smart Trash Bin** *(Completed)*
*Hardware & Backend Developer · Flutter, Node.js, Express, MongoDB, Firebase, TensorFlow, Arduino*
- Developed a smart waste-management prototype with a Flutter application for monitoring bin locations, waste types, and fill levels. Contributed to the AI-based waste-classification model, backend/API development, database integration, and automatic waste segregation. Performed testing and debugging to improve system functionality and hardware–software integration.

**Student Schedule Tracker**
*Full-Stack Developer · Java, Android SDK, AndroidX, Material Components*
- Designed and developed a complete Android app for organizing class schedules, from UI to data handling.

**Portfolio**
*Full-Stack Developer · HTML, CSS, JavaScript*
- Designed, built and deployed my own portfolio site documenting my projects and growth as a developer.

## EDUCATION

**Bachelor of Science in Information Technology** — **August 2024 - 2027 (Expected)**
St. Dominic College of Asia

**Bachelor of Science Computer Science with a specialization in Software Engineering** — **August 2023 - July 2024**
FEU Institute of Technology

**Science, Technology, Engineering, and Mathematics (STEM)** — **August 2021 - May 2023**
Senior High School - Unida Christian Colleges

## CERTIFICATIONS AND AWARDS

- **Information Technology Specialist — Databases (Certiport), 2025**
- **Dean's Lister, St. Dominic College of Asia · 1st Semester A.Y. 2025–2026 (GWA 1.5)**
